* OTI is calculated as the ratio of all credit obligations of the borrower, co-borrower and their family members to total net income.

OTI calculation includes:

- Borrower's net income, or
- Borrower's and co-borrower's net income, or
- Net income of the borrower, co-borrower and their family members.

OSM is calculated as the difference between the income and credit obligations included in OTI calculation minus spendings of the borrower/co-borrower and their family members.

Depending on income, expenses per family members are calculated as follows:

1. If the income is below AMD 400,000, estimated expense per family member is AMD 70,000 if in Yerevan, and AMD 45,000 if in regions.
2. If the income is from AMD 400,000 to AMD 800,000, estimated expense per family member is AMD 90,000 if in Yerevan, and AMD 70,000 if in regions.

Note that persons owning at least 70% of income included in OTI calculation should be co-borrowers or guarantors.

OTI/OSM calculation includes the highest applicable amounts of monthly loan payments.

Lines of credit and gold-secured loans are included in calculation of monthly liabilities to the extent of 5% of credit limit/outstanding loan.

**The annual percentage rate (APR) may differ from the above specified values if there is any or a few of the following factors:

- When the property insurance is obtained by the Bank at the customer's request
- When the borrower selects differentiated or mixed form of loan repayment
- If there are deviations from the creditworthiness criteria approved under the internal regulations of the Bank
- If additional property is pledged as collateral
- If there are other deviations

No creditworthiness ratios are calculated and no proof of income is required for loans secured by cash and metal accounts in gold.

***In case of loans secured by cash the amount of cash is included in LTV calculation after deduction of interest paid at the beginning of term.

****Geodetic measurement is required for any land other than fenced plots or grounds attached to house, if:

- Client has applied for a loan above AMD 50 million, and
- Share of credit limit to be secured by such land plot exceeds 30% of total available credit limit. For the purposes of this document total available credit limit means the sum of all loan proceeds made available to client by decision of the bank's authorized body within acceptable LTV ratio and subject to disbursement at the given moment.
