Early repayment	5% of prepaid amount, chargeable if early repayment of the whole or part of loan is made during the first 3 years of loan term. Does not apply to (i) the loans for procurement of agricultural raw materials, (ii) loans for establishment of vineyards, intensive orchards and berry plantations with modern technologies, (iii) loans for purchase of pedigree cattle, (iv) loans for the development of sheep and goat farming, and (v) loans secured by cash collateral at Ameriabank and/or bonds issued by Ameriabank. In case of early repayment of the loan, whether in full or in part, the fee will not be charged if such loan is prepaid out of the loan proceeds provided by Ameriabank CISC to the borrower for that particular purpose. In case of loans in the amount of up to AMD 5 million or its equivalent in foreign currency, any early repayment fines, fees, increase of rates or any other means affecting the borrower's condition are not applied.
Late payment fines and penalties	The interest rate specified in the loan agreement shall continue to be applied to overdue loans. Fine in the amount of 0.13 % of overdue loan/interest for each day of delay
Down payment in case of financing for purchase of solar panels and water heating systems	5% min, but if the borrower and the vendor sign a buyback or debt waiver agreement, there is no down payment.
Loan disbursement tranches in case of finance for purchase of solar panels and water heating systems	The loan can be disbursed in tranches where the share of each tranche is determined in accordance with the cooperation agreement with the vendor, provided that the share of the last tranche is at least 20% of the loan principal and is provided after insurance of the solar facilities.

¹ Unless otherwise specified in the Loan Agreement, the loan proceeds should be used for their intended purpose during no more than 3 months. In case of tranche loans, the amount of each tranche will be disbursed during no more than 3 months following the previous disbursement, after checking if the loan proceeds are used for their intended purpose.

² No creditworthiness ratios are calculated and no business analysis and proof of income are required for loans secured by cash and metal accounts in gold.

³ Depending on the creditworthiness of the borrower, term of loan and LTV ratio, a higher or lower interest rate is applied in accordance with annex 1 forming an integral part of these terms.

⁴ Total cost of the specified energy efficient investments and associated works should comprise at least 70% of the loan principal. Up to 30% may be invested into other fixed assets of the borrower. The loans for this purpose are financed under GAF "Energy Efficiency for SMEs" program.

⁵ The list of resources, their value and margin are determined by the Financial and Operational Department.

 $^{^6}$ Geodetic measurement is required for any land other than fenced plots or grounds attached to house, if: - Client has applied for a loan above AMD 50 million, and

⁻ Cheen has applied for a foan above AMD 30 million, and
- Share of credit limit to be secured by such land plot exceeds 30% of total available credit limit. For the purposes of this document total available credit limit means the sum of all loan proceeds made available to client by decision of the bank's authorized body within acceptable LTV ratio and subject to disbursement at the given moment.

⁷ The fee is charged if the modification is requested by the client. Where there are several applicable fees for the same modification, the highest fee is charged and only once. Fees are not applicable in case of loans secured by cash, bonds and metal accounts. If the modification implies adding new collateral or involving a new guarantor, no fee is charged. These fees do not apply to loans to agro-processing industry.
